REPLYING TO YOURS OF

Parker, South Dakota Feb. 12, 1896.

Superintendent of the U. S. Mint,
Philadelphia, Penn.,

Dear Sir:--

I am the agent of the owner for the sale of an 1804 silver dollar. The said owner is positively certain that his coin is the genuine article, although I understand that it has never been examined or passed upon by an expert numismatist.

If you wish to purchase this coin for the Mint Cabinet or for any other purpose, I shall be pleased to receive a bid from you for the coin, said bid to be made and received with the understanding that the coin is an original--not a restrike nor bogus--and that it is in good condition, all letters, stars, etc. distinct.

If this letter does not interest you directly and you should happen to know where a sale of this coin could possibly be made to advantage, I would be pleased to have you send me the address of such possible purchaser if you care to do so. I have a communication from the Messrs. Chapman of your city in regard to the coin, but have as yet had no correspondence with any one else.

Trusting that I may have the favor of a reply from you at your early convenience, I remain

Yours very respectfully,

B.W. Kumler
